PERSONAL PROFILE

I am a creative problem-solver constantly seeking innovative solutions that push the boundaries of what's possible. With a collaborative mindset, I thrive in team environments utilizing diverse perspectives to drive impactful outcomes. I am passionate about technology and driven by a desire to make a difference.

ACHIEVEMENTS

- Completed a 30 days of learning challenge in the web development track of the google developer students club. (Babcock University, 2023).
- Awarded an excellent grade certificate for the 2023 frontend web development scholarship examination (AptLearn, 2023).
- Developed first game at age 12.
- Awarded best debater in Secondary School (Vicsum Private School, 2017).
- Ranked third in chess in Primary school (Vicsum Private School, 2014).

WORK EXPERIENCE

Internship

Zeta-Web Nigeria Limited (January 2024 - June 2024)

- I provided IT support to staffs, thereby gaining proficiency in information technology and best practices, I also learnt networking fundamentals, one of my major roles was to maintain the company's websites, prior to getting access to the company's website and back-end credentials I had to learn wordpress and prove my proficiency by building a landing page and then I was also tasked to integrate a chatbot to the website, I used open ai's api to achieve this, I also led the procurement and rerouting of domains for the web experts business unit. I had to learn to use zapier for an automation project I was working on. I engaged in active learning and earned multiple certifications, towards the end of my programme, I developed a web app for efficient operation in the IT department.

Volunteer Experience

Milteksol Nigeria Limited (July 2019 - September 2019)

- Assisted in the provision of comprehensive technical support to employees and clients, effectively troubleshooting hardware and software issues, diagnosing problems, and implementing timely solutions. Leveraged troubleshooting techniques to minimize downtime and enhance user experience.
